

WOMEN'S SYNERGY

2013

Women's Synergy, (WS) in a nutshell, is about the coming together of women from all walks of life, to a common platform, irrespective of their educational, socio-economic, cultural or other backgrounds, for building 'symbiotic' relationships. WS is a recently registered; Delhi based Trust with a non-profit mission, currently operating in Delhi & NCR.

Women are encouraged to dream and fuel their own growth and self-development along with that of their peers, individually and collectively, by networking and gaining both direct and virtual exposure to people from versatile backgrounds. Women touching WS become our very lifeline as we believe in the 'BEST' for each woman. Such a belief of ours is backed by our strong sense of conviction that most women are providential leaders, donning several hats at a time, taking on responsibilities attached to a wide assortment of roles assumed by them and giving in their best, during their life course. So we were led to our adage at WS—'*Where Every Woman Leads*'!

Our focus and target group at WS is on financially and circumstantially challenged women. However, the *modus operandi* is to bring together women from various backgrounds, irrespective of their financial, educational, cultural, regional differences, willing to form a symbiotic network and synergize amongst themselves for creating a 'resource pool of financial and non-financial resources for their deserving counterparts.

With the spirit of 'Appreciative Inquiry' instilled by WS, they affirm to take on responsibility for their own lives, while performing to their optimum potential by identifying and focusing on their strengths and opportunities ahead. Their capacities are built in accordance with their individual aptitudes, interests, needs and strengths through various programs of WS so that every woman transitions with ease, to a proactive mode of living. The spotlight is on what it takes to nurture a great family environment, to be a successful role-model woman, to be a great woman, a happy woman, a leading woman with enviable communication skills/life skills, resilience, and so on, while cross-pollinating these ingredients and in a manner that would serve a public cause as well as serve their own needs for growth and development. The process of developing the capacities of women across varied backgrounds simultaneously will go a long way in tapping the synergistic advantage of such a symbiotic network across larger, heterogeneous groups of women while fostering the spirit of reaching out to their less advantaged peers.

Vision & Mission of Women's Synergy:

Vision:

To see women, in secure, rightful, self-created positions of pride, within their families, society and the nation at large.

Mission:

"To establish symbiotic relationships amongst women from varied socio-economic, educational and other backgrounds so as to facilitate their individual and collective growth, as well as function synergistically to empower their less advantaged/ circumstantially challenged counterparts and single women"

&

"To create a self-sustained 'resource pool' belonging to women, by women themselves, for their deserving counterparts, tapping synergies towards self-development, thus rising individual standards of productivity and commitment towards their respective families, communities and the nation at large."

Objectives of Women's Synergy:

- ✚ To create platforms and facilitate the formation of women's groups/peer support groups which could operate symbiotically towards issues affecting their lives and take self-initiatives for growth.
- ✚ To map the potential resource flow amongst various groups of women and create a common pool of funds, talent, knowledge, and other resources in-kind, especially for single and other circumstantially challenged women while consistently blurring prejudices/borders if any, amongst women of varying backgrounds.
- ✚ To preserve the dignity and emotional health of women, boost the economic value and self-esteem of women playing various roles as learners, homemakers and citizens contributing to the welfare of their families/ nation, by providing them with a basket of services like -counseling, mentoring, referral, marketing, networking and institutional linkages.
- ✚ To create a huge, cumulative database of women under various categories through formation of alumni networks of women coming together, so as to create synergies amongst them and encourage their symbiotic functioning.
- ✚ To ensure women's emotional well-being and economic self-reliance by promoting their creative skills and boosting their entrepreneurial capacities; most importantly, through their own efforts.
- ✚ To encourage and boost computer literacy levels amongst women, so as to help them tap the advantage of technology, in their respective fields of operation /multi-faceted roles.
- ✚ To conduct research on women's issues from time to time, and engage young volunteers like college students in the research and documentation process, for sensitizing them towards women's issues early in their lives, in a subtle manner, etc.
